

PERSONAL REFLECTIONS: A Contemplative Approach to Your Horoscope

with **Melanie Reinhart**

at **The Abbotsford Convent, Abbotsford**

from **February 25 - 26, 2012 10 am – 4.30 pm**

During this exploratory weekend we will contemplate our transits, progressions and natal charts, alone and with the group. First, the current planetary landscape will be reviewed to locate the significance of the outer planet cycles and patterns within our own personal life. Then we will engage with various processes to facilitate access to the deeper dimensions of our experience working with these aspects. The practices that are available include guided imagery, working with dreams, movement, meditation and music, sharing and silence. Overall, the material will be held within the consideration of how we might sustain a contemplative approach within our astrology, which in turn provides a context for healing to arise.

Melanie was born in Zimbabwe, whose night skies inspired her vocation of astrology. She is a prize-winning

Diploma-holder of the Faculty of Astrological Studies, of whom she is also a Patron. She received the prestigious Charles Harvey Award in 2004, for 'exceptional service to astrology'. Melanie has taught for some of the world's leading astrology schools in the UK and abroad, and has also presented original research material at many international conferences; she maintains a busy consulting practice, travels worldwide and runs her own programme of workshops based mainly in London. Books published include: 'Chiron and the Healing Journey', 'Saturn, Chiron and the Centaurs', and 'Incarnation', and a contribution to the anthology 'The Mars Quartet'. Melanie has wide experience of spiritual teachings and therapeutic methods both physical and psychological, and has a special interest in meditative experience as a healing modality.
