

## THE FAMILY PORTRAIT

Brian Clark & Glennys Lawton

August 29, 2009

A family photograph gives a visual impression of individual members of a family, seemingly separate but each taking their place in the extended family's existential blueprint for being. Each family member contributes to the unfolding myth of the family. The horoscope provides us with insight into their stories, both known and unknown, and the dynamics that weave the patterns in the familial tapestry. In this workshop we will include working with the geneagram to highlight the many ways in which we remain deeply loyal to our own unique familial blueprint.

**The Abbotsford Convent**

**1 St. Heliers Street**

**Abbotsford**

**10 am - 4:30 pm**
