

## AS THE WORLD TURNS: *The Astrology of Relocation* Brian Clark

June 5, 2010

The natal horoscope is derived from the fixed date and time of birth as well as the place of birth, which may be altered through emigration or relocation. In this workshop we will explore the astrological techniques that relocate a horoscope and the information that can be gleaned from these horoscopes. We will study the astro\*carto\*graphy maps which depict lines throughout the world and explore these maps in terms of our ancestry, our travels and our fascinations. We will also look at the wisdom of using relocated charts and the psychology of emigration and relocation.

*This workshop is limited so early registration is advised.*
