

SYMPTOM and the SOUL: The Astrology of Wellbeing and Illness

Brian Clark

SATURDAY November 6, 2010

Today's seminar will focus on the relationship between soul and symptom; how astrology helps address the significance of symptoms and encourages meaning, which in turn helps us to participate with our own healing. We will explore the astrology of well being beginning with important archetypal patterns and concepts such as Chiron and our healing journey; elements and temperament; the houses of health; planets, physical and psychological well-being and health

Places are limited so please register early. Bring you own charts on transparencies.
